Eerik Lehdonjoki

Senior Data Engineer

Jyväskylä, Finland

PROFILE

Senior data engineer with a software development background. I have built and run production systems, data integrations and cloud data platforms.

Currently I work mostly with **Azure and Databricks**. Daily tools are **Python, SQL, Spark, Azure Data Factory, Terraform, Kubernetes and CI/CD**.

Before data engineering I did backend and full stack development for many years, so I am also familiar with cloud infrastructure, application architecture and running things in production.
